

About GetFave

The GetFave.com search engine solution has been designed to work in harmony with Google and the other major search engines to provide the greatest visibility possible at a reasonable cost. Fave is populated with over 15 million business listings, which it enhances with entertaining and informative videos, banners, coupons, and other information directly from business owners. PowerListings allows business owners to update their business listings in GetFave's directory in just minutes.
